Washington, DC 20554

Re: WT Docket Nos. 03-66, 03-67, 02-68; RM-10586; MM Docket No. 97-217;
RM-9718

Dear Ms. Dortch:

On October 1, 2003, the undersigned and Jessica Brodey of Leslie Harris & Associates, and Jim Hermes of the American Association of Community Colleges, met with Barry Ohlson, Legal Advisor for Spectrum Issues for Commissioner Adelstein, on behalf of the Education Community to discuss a wide range of issues concerning ITFS spectrum pending before the Commission.

The remarks made during this meeting were consistent with the comments of the "Education Community," a group of nineteen national K-12 and higher education organizations, filed in the above-referenced proceedings. With respect to the eligibility requirements to license ITFS spectrum, the Education Community urged that the Commission retain the educational use requirements and explained the ongoing value of ITFS to education at all levels. Additionally, the Education Community stated its opposition to the sale of ITFS spectrum to commercial entities, and similarly opposed the auctioning of ITFS spectrum.

This letter is being filed electronically in each of the above-referenced dockets.

Sincerely,

Leslie Harris
President

cc: Commissioner Adelstein
